WHY US?

WHAT IS PULSE EDITION?

The pulse function enables Polycut to trim all types of foam - both wet and dense.

DURABLE AND HIGH QUALITY

Uncompromising materials for optimal durability. The perfect solution for the construction site.

PRECISION AND LOW MATERIAL WASTE

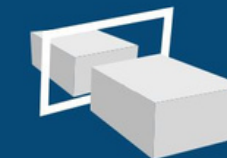

Precision unlike any other - down to 2 mm. You get the most out of the foam board.

SERVICE AND ADVICE

Comprehensive service is always provided for all sold machines - along with personalized advice.

USING ITS OWN WEIGHT

Polycut easily slices through the foam board with its own weight - straight and consistent cuts without surprises.
